HOW I WORK

Curious by default. I enjoy understanding how things work, improving the small details and turning ideas into useful, well-organised results.

BEST FIT

- PART-TIME
- FREELANCE
- EVENTS / OPERATIONS
- DIGITAL PROJECTS

CORE STRENGTHS

- Clear, thoughtful communication in Spanish and English.
- Reliable with timing, procedures and client follow-up.
- Calm, practical problem-solving and fast learning.

Alberto Medina

Computer Engineering student · Client-ready problem solver

I am a technology-minded student about to begin a Computer Engineering degree, with practical experience delivering paid digital work to clients. I bring **advanced working English, care with detail and a genuinely helpful attitude** to every role.

I am looking for responsible part-time, seasonal and freelance opportunities - including Cambridge-related operational work - where I can contribute with organisation, client communication and reliable follow-through.

01 Education & English

- 2026 -

Computer Engineering degree - starting in 2026
University studies focused on software, computing systems and engineering foundations, while I continue developing a practical portfolio alongside my degree.
- 2026

Spanish Baccalaureate (Bachillerato) - completed
Completed upper-secondary education and the university entrance process while pursuing independent creative and technical projects outside class.
- JUN 2026

Cambridge English: C1 Advanced - examination completed
Result pending. Confident in written and spoken English: formal writing, reports, instructions, proposals and real-time conversation.

LANGUAGES

- Spanish Native
- English B2+ / C1 working proficiency

WORKING STYLE

- Professional, friendly communication.
- Quick learning with new systems and tools.
- Care with procedures and accuracy.
- Visual, user-focused problem-solving.

02 Practical experience

FIVERR FREELANCE EXPERIENCE

Freelance digital creator & client delivery

2024 - 2025

Completed paid digital projects for international clients, independently managing **briefs, requirements, revisions, deadlines and final delivery**. My work combined creative and technology-focused tasks, SEO-ready media content and bilingual client communication.
